PROFESSIONAL SUMMARY

Java Full Stack Developer with hands-on experience building a full-stack e-commerce application using Java, Spring Boot, React.js, and MySQL. Skilled in designing RESTful APIs, relational database schemas, and responsive front-end interfaces. Strong foundation in Core Java, OOP concepts, and the software development lifecycle. Seeking an entry-level Java Developer role to contribute to scalable, high-quality software solutions.

TECHNICAL SKILLS

Languages: Java, JavaScript, HTML5, CSS, SQL

Frameworks & Libraries: Spring Boot, React.js, Bootstrap, Java Collections Framework, JPA/Hibernate

Database: MySQL, MongoDB

Tools & Version Control: Git, GitHub, Postman, Vercel

Development Environments: VS Code, Eclipse IDE, IntelliJ IDEA

Concepts: Object-Oriented Programming (OOP), RESTful API Design, Data Structures & Algorithms

PROJECTS

E-Commerce Web Application | React.js, Bootstrap, Spring Boot, MySQL

- Developed a full-stack e-commerce platform with a React.js and Bootstrap front end and a Spring Boot back end.
- Implemented core features including user authentication, product listing, add-to-cart, and order management.
- Designed and integrated RESTful APIs using Spring Boot to enable seamless front-end to back-end communication.
- Created and managed a relational database schema in MySQL for users, products, and orders.
- Used Git and GitHub for version control and collaborative project management.
- Built the frontend in VS Code and the back end in Eclipse IDE.

Car Rental System | React.js, Java, Spring Boot, MySQL

- Designed and developed a full-stack car rental platform enabling users to browse, book, and manage car rentals for trips or personal use.
- Built a dynamic React.js front end allowing users to search available cars by location, date, and category, with real-time booking status.
- Engineered the back end using Java and Spring Boot, implementing RESTful APIs for vehicle inventory, booking, and user management.
- Modeled a relational MySQL database to handle vehicles, customers, bookings, and rental duration with accurate pricing calculation.
- Implemented business logic for booking validation, including car availability checks and rental period conflicts, to ensure data integrity.
- Followed a modular MVC architecture to keep the codebase scalable and maintainable for future feature additions.

Portfolio Website | React.js, Bootstrap

- Built a responsive personal portfolio website using React.js and Bootstrap with reusable, modular components.
- Applied React Hooks for efficient state management across components.
- Deployed the application on Vercel for live public access.

CERTIFICATIONS

Java Full Stack Developer — IT Vedant (2025)

Coursework: Core Java, Spring Boot, React.js, MySQL/MongoDB, REST APIs, HTML/CSS, GitHub

EDUCATION

Bachelor of Technology in Computer Science

Goel Institute of Technology and Management (AKTU) | 2019 – 2023 | CGPA: 6.8/10

Intermediate (12th Standard), Soni Children School, UP Board — 2018 | 62%

High School (10th Standard), Soni Children School, UP Board — 2016 | 81%

ADDITIONAL SKILLS

- Teamwork and Collaboration
- Adaptability to New Technologies
- Time Management

LANGUAGES

Hindi (Native)

English (Professional Proficiency)
